Day 21 : Set Up Git Repository on Storage Server

Name: Nevesh Gokul M J

Department: CSE

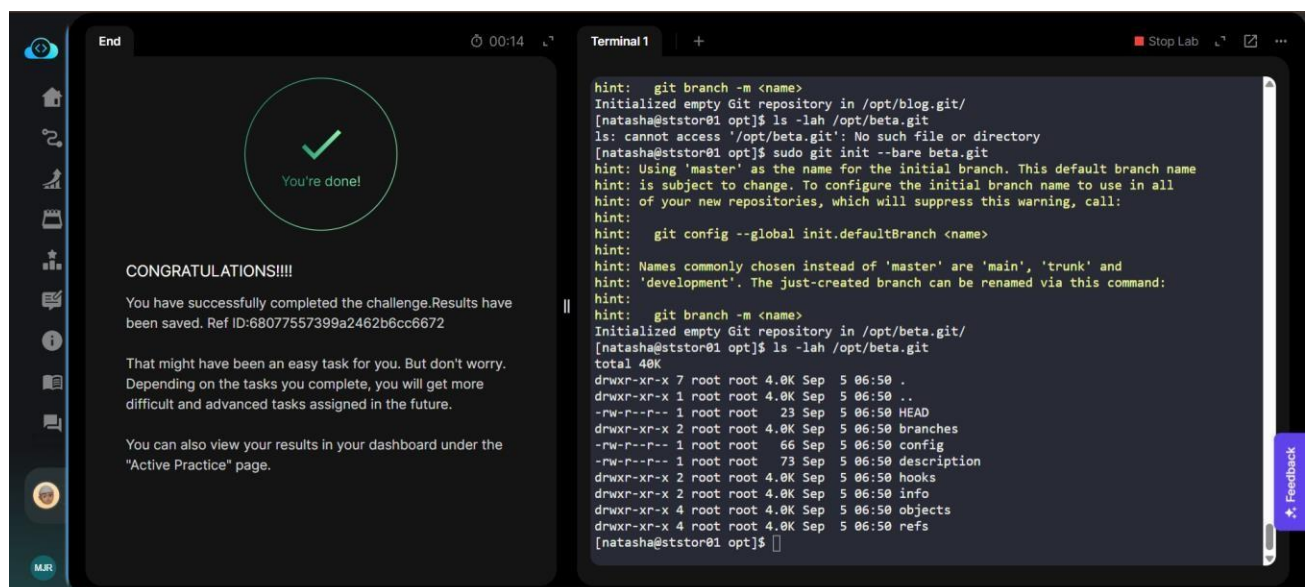

Set Up Git Repository on Storage Server

Objective :

The main objective is to establish a Git repository on the **Storage Server** as requested by the Nautilus development team. This will allow them to begin a new application development project.

Steps Performed :

- ❑ **Install the Git package:**
 - `sudo yum install git -y`
- ❑ **Create a bare repository:**
 - `sudo git init --bare /opt/beta.git`
- ❑ **Verify the creation (optional):**
 - `ls -lah /opt/beta.git`

Congrats!

You have completed the task successfully.
